

Instructions

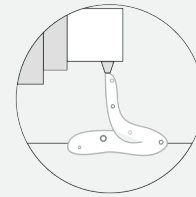

SKIN RENEWAL

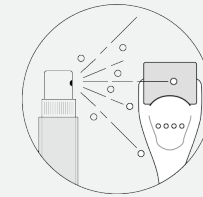

Thoroughly clean the skin you plan to treat.

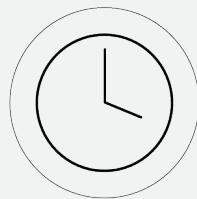

Roll your Skin Roller back and forth for a few minutes in different directions on the desired area.

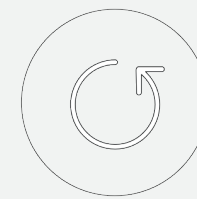

Immediately apply the Rejuvenating Serum to the area.

Always clean your Skin Roller after use with our Sanitizing Spray or other antiseptic spray.

If you want to apply a night cream, let our Rejuvenating Serum absorb for at least one hour before applying.

Repeat the treatment daily for 5-7 days. Allow the skin to rest for the same period of time before resuming treatment.
